

## *The Country Club of Jackson*

August 26, 2022

Dear Members:

This is an exciting time for the Country Club of Jackson! Membership has increased and The Board of Directors continues to work diligently to ensure that your member experience is exceptional. In that regard, we want to update you on the status of Phases One and Two of the overall vision for the Club.

In 2021, the Board approved an investment in the renovation of the interior of the clubhouse as well as the golf course - Phase One of the overall vision for the Club. The Phase One clubhouse renovation is now complete and we hope you have had the opportunity to enjoy it.

During our townhall meetings in 2021, members expressed significant interest in completing Phase Two of the overall vision for the Club. That phase would significantly improve the exterior/patio area of the clubhouse. To respond to that interest, the Board decided to conduct a feasibility study to determine potential options for funding Phase Two. The feasibility results were submitted in January of this year and were positive and encouraging.

To build on that foundation and broaden the base of input by reaching out to the entire membership, the Board decided to conduct an electronic survey and invited participation in several focus groups held during the spring. The results from that step were positive so the Board has decided to engage in a funding initiative to seek voluntary financial commitments from the membership to fund Phase Two.

That step in the process is underway, we will keep you informed of its progress. In the meantime, if you have any questions, please do not hesitate to reach out to either of us or any of the Club Board members.

Sincerely,

Monica Moser  
Club President
